

BUILDING CONTRACTORS

Homegrown Qualities

McCurrach & Swart has been a family-owned and family-run business since its beginnings in 1969. Master Builder Rupert Swart and son Brett share the same unwavering commitment to delivering quality builds. Together, they are highly experienced in a diversity of builds including commercial, industrial, new builds, developments, renovations and specialised alterations.

Over the decades, McCurrach & Swart has constructed a rock solid industry reputation as the go-to business for challenging projects requiring high levels of personal attention, as well as rapid turnaround time without compromise on top end finishes. Our hands on approach has led many top architects and engineers to choose to partner specifically with McCurrach & Swart. Our **collaborative style** often sees us working closely with these parties and with the client, all the way from project inception to the final selection of finishes.

KwaZulu-Natal, S.A.

Our Strategy

PURPOSE To be a leader in the construction industry by building close relationships with our esteemed key clients and suppliers.

VISION To provide a quality service that exceeds expectations, rather than simply meeting them.

CORE VALUES We treat our staff and our clients with complete trust and respect. Our company culture is supportive and promotes skills development. We thrive on innovation and its application. We demonstrate transparency and integrity in all aspects of our business dealings. We aim to streamline costs and resource utilisation while minimising environmental impact.

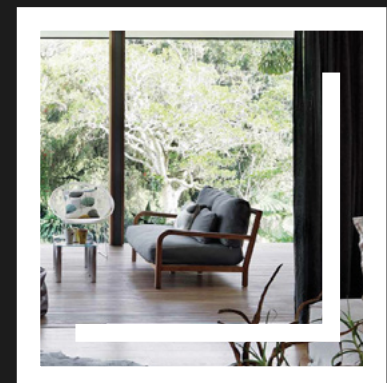

Our Scope of Work

Aside from our focus on **quality workmanship**, it is the diversity of projects on our books that sets McCurrach & Swart apart. These range from large scale industrial to prestigious residential briefs including the refurbishment of historical homes on Durban's Berea.

McCurrach & Swart has worked on many of KZN's premier residential estates. Our professional construction team, registered with the NHBRC, has handled such projects from the KZN Midlands to the North Coast, with three of them having featured on the front cover of **House and Leisure** magazine.

Whether large or small scale, every project benefits from the same attention to detail for which McCurrach & Swart is known. Our diverse portfolio includes many eco-friendly builds and we prioritise efficiency in terms of both costings and resource utilisation. We strive to deliver the best value for money for our clients, while helping to minimise their ecological footprint.

Empowerment

From the start, McCurrach & Swart prioritised skills development. Many of our respected foremen today have been **with us for decades**, and have been fully supported in advancing their roles within their respective teams.

Brett and Rupert fully rely on the skill and dedication of their foremen, and their tight-knit teams, to help McCurrach & Swart exceed clients' expectations.
